

Homer Street – Airport Way to Corson Ave

Homer Street – Airport Way to Corson Ave

Project ID # 2007-270

Type of Improvement: Street Resurfacing

Neighborhood: Georgetown

Approximate Length: 480 LF

Street Classification: Local Street

Applicant Description of Problem and/or Project:

Problem: There are several side streets that connect Airport Way S business section to the more residential section of Georgetown. The two-block stretch of roadway is in disrepair. The road is riddled with potholes, many over a foot wide and several inches deep. Homer's state is beyond a simple call to the pothole hotline. A major repair and repave is needed.

Suggested Project: Repave Homer Street between Airport Way South and Corson Avenue South

Potential Solution and/or Comments:

Homer Street between Airport Way S and Corson Avenue S

- Full depth HMA pavement reconstruction of street
- Construct new catch basins and storm sewer to collect street runoff.
- Reconstruct railroad crossing.

Challenges/Tradeoffs:

- Existing railroad tracks require special permits and traffic control to reconstruct.

Preliminary Range of Cost: \$1,050,000 to \$1,290,000
